LIVING in the country, upon their own lands, KELWAY & SON are able to give that continuous personal supervision to the selection and saving of Stock Seeds so necessary to ensure the purity and high quality which the Trade needs.

TERMS OF SALE.

We give **NO WARRANTY**, either express or implied, as to the growth, kind, description, quality, productiveness, or any other matter regarding any Seeds we sell; nor will we be in any way responsible for the crop resulting therefrom. If the purchaser does not accept the goods on these terms, he must return them at once, as they are sold upon these conditions only.

THIS LIST CANCELS ALL PREVIOUS OFFERS, and prices are quoted only for as long as unsold. Quotations per cwt., bushel, lb., or oz., as the case may be, do not refer to smaller quantities than ⅛-cwts., pecks, ¼-lbs., or ⅛-oz., which may be charged at higher rates at our option. **SPECIAL PRICES** for large quantities can always be obtained from us on application.

All prices are f.o.r. Langport, except otherwise quoted.

PAYMENTS.—With the exception of Grass Seeds, Clovers, and Seeds of Forage Plants, all Accounts are due **NETT AT MIDSUMMER** and on Journey. Five per cent. Discount is allowed for Cash within one Month from date of Invoice; 2½ per cent. on Accounts settled Quarterly. Accounts for Grass Seeds, Clovers, and Forage Plant Seeds are due Nett at Three Months from date of Invoice. These Discounts, &c., do not refer to Special Quotations. No other allowances or deductions can be made unless applied for **on receipt** of the Invoice.

Cheques, Postal Orders, &c., should be made payable to **"KELWAY & SON,"** and crossed "Stuckey's Banking Company, Limited."

RETURNED EMPTIES.—Sacks and Bags are allowed for according to their full price as charged, provided that they are returned in good condition within a reasonable time, carriage paid and advised by post, and with the customer's name and address attached. Damaged Empties are only credited at value when received. Prices charged for Bags are as follows:—Three or four bushel sacks, **1s.**; Two bushel, **9d.**; One bushel, **6d.**; Half-bushel, **5d.**; Peck, **4d.**; Gallon, **3d.**

CONVEYANCE.—In transit all goods are at the risk of the purchaser, and no insurance is effected unless we are so instructed. When the route, and mode of transit, and method of consignment is left to us, we do everything in the interest of our customer to forward as **expeditiously** and as **cheaply as possible**; but as it is not always possible to make these conditions coincide, we are always glad to have instructions from the purchaser, *e.g.*, as to whether the goods are to go by water or by rail, or partly by one and partly by the other; if by water, whether insurance is to be effected or not; if by rail, whether by goods or passenger train; also if the goods are to be booked at any particular rate, such as Grain, Pea, or Agricultural Seed rate.

We do not hold ourselves responsible for any errors which may arise during transit.

FRESH CUSTOMERS will always find us eager to serve them, provided that they send Cash or satisfactory reference with their first order.

EARLY ORDERS are always very much appreciated, as they allow us to make headway with their preparation before the press of the season commences.

ALL TELEGRAMS should be *signed*, to avoid delay.

Our Novelties and Specialties can only be obtained in our Sealed Packets, or direct from us, and are delivered at the rate of 24 retail packets to the dozen, or two for one, *i.e.*, half price. Any number supplied.

Only Address: **KELWAY & SON, LANGPORT, SOMERSET.**

Cabbage.

Beside the rigid care with which KELWAY & SON select and rogue their stocks of Cabbages, a great portion of the seed offered is saved *from stumps*. Anyone with a knowledge of seed-saving will understand what an advantage and safeguard this is.

KELWAY'S PLACÊBO, this variety, offered by Kelway & Son recently, is recommended as the finest quality large main or late crop sort possible to grow. Though large and close the hearts are very tender, and there is a lack of any coarseness in the outer leaves. A grand handsome variety for the exhibition table. The colour is dark green	—		10	0
KELWAY'S STANLEY, the earliest Cabbage and the best in quality of all the early varieties; of medium size, very firm at the heart, very few outer leaves, and these free from coarseness, in colour dark green with small white veins. Flat Keeping Varieties.

Per lb.—s. d.

KELWAY'S HERO. We recommend this as the finest form of a reliable heavy cropping and long-keeping Onion. The bulbs are exceedingly handsome when matured, and are continually taking prizes where exhibited. The colour of the skin is a rich tawny yellow or very light brown; the bulbs attain a very great size, and on account of the density in texture of the flesh are of enormous weight; they are of great depth without being swollen at the neck, and thus in shape are between the "globe" and "flat" varieties. We highly recommend it for general use as well as for exhibiting 10 0

Agricultural Seeds.

All our Stock Seeds are saved from specially-chosen transplanted Roots.

For very many years have we been Growers and Selectors upon our own lands near Langport of Special Stocks of Swedes, Mangolds and Turnips, and we honestly believe and state with the utmost confidence that purer or choicer kinds than our Special Sorts have never yet been sold. This refers in proportionate degree to our strains of other varieties. ALL are to be relied upon as the best of their kind, and undergo rigid selection.

Prices and Special Quotations for Agricultural Seeds sent on application.

Mangold.

Per cwt.—s. d.

KELWAY'S PRIZETAKER YELLOW GLOBE. The entire stock was originally selected from one bulb; it has a very small top and very few fibrous roots; it is therefore lifted with a minimum of labour and is fed with a minimum of waste; its symmetrical shape and attractive colour make it unequalled for exhibition; the flesh is of the densest consistency and most nutritive quality, and it reaches a very great size; consequently it is *an exceedingly heavy cropper*, being absolutely unsurpassed in this latter respect. Having been fixed as a variety for such a number of years, its sportive character is *nil*. We are untiring in our annual labour of selecting stock-roots to grow from ... ...

KELWAY'S IMPROVED CORNER'S YELLOW GLOBE. This needs no introduction in the West of England. The stock originated in our neighbourhood, and seed was obtained by us from Mr. Corner himself upon its introduction. Though so near perfection at that time, the great care we have bestowed upon it has evidently been appreciated by our customers ...

KELWAY'S INIMITABLE LONG RED. An immense cropper. We recommend it beyond any for weight, feeding properties, and ease in lifting ... .

KELWAY'S RE-SELECTED MAMMOTH (or GIANT) LONG RED. The properties of the original Mammoth are well-known. This is a very careful selection from it, having in view the elimination of coarseness whilst keeping it of a large size ... ...

KELWAY'S LORD OF THE ISLES INTERMEDIATE. A wonderful improvement upon the ordinary Intermediate, being a more fixed stock of the correct Intermediate type. Very rich in quality and clean lifting

KELWAY'S EXHIBITION GOLDEN TANKARD. We have never had greater satisfaction in introducing any sort than we have in recommending this superb variety. It was found amongst our "Model" Golden Tankard, to which it is superior in the dark colour of the skin and the rich golden hue of the flesh. The perfect "Tankard" shape of the original "Model" is retained, together with its highly saccharine quality and extreme solidity of flesh. An enormous weight per acre is obtained from it.

Swede Turnips. Purple-topped Varieties.

KELWAY'S LANGPORT MAMMOTH.

The Hardy Swede.

This variety is *an enormous cropper*, and one of the most hardy and disease resisting sorts in cultivation, seldom getting mildewed. We have also noticed that it possesses the useful property of growing freely in all kinds of soils. It is as near as possible *globe shaped*, with a very short neck fully developed, dwarf foliage, and a clean single tap root. It possesses very dense sound flesh. The portion of the root growing out of the ground is of a very plum colour. We annually save large quantities of this variety entirely from our own stock seed on account of the increasing favour which it meets with. Our stock is still as pure as ever, indeed we think we may say it is improving.

A fine representation of this variety, 2 feet by 3 feet painted in oils from nature, mounted on canvas, and framed, will be sent to all who stock it.—See annexed illustration.

KELWAY'S LANGPORT MONARCH.

The Heavy-cropping Swede

N.B.—This should not be confused with a *Monarch* Swede which was introduced to the trade some time after this variety was sent out. The *Langport Monarch*, is rather higher in the shoulder than the *Langport Mammoth*, and consequently each individual root is somewhat larger. The upper portion of the bulb is of a bright carmine colour. The flesh is very firm, the top short, and the absence of fibrous or forked roots remarkable. The crop per acre is unsurpassed in weight and quality.
